EDMONTON, ALBERTA, FEBRUARY 4, 1950

SUBSCRIPTION \$2.00 PER YEAR

Telephones Offered Office In Municipal District Building

MORINVILLE. — At the Jan. 12 meeting of the council of the Municipal District of Morinville, suggestion was made that the Alberta Government Telephones establish their Morinville Central office in the Municipal Building off main street.

Mr. Doucette called on council in regard to the moving of the Central Office in Morinville. He advised that some objections were raised as to the location of the new Central, it being off the main street and in an alley-way. He advised council that the move was made to better the service.

Council advised him that they had made representation to the Alberta Government in regard to the Central some time ago, as an office was available for the Central in the Municipal Building which is on the main street; that their object was for the government to operate on similar basis as their Westlock office, thereby giving the people the service which is required.

This move would have given 24-hour service to the people in the Legal district and all other parts of the municipality, thereby increasing and giving far better service to this area. They believed that a move in this direction would have warranted the construction of a Central office by the government on the main street of the town.

Mr. Doucette was referred to contact the Morinville Board of Trade further in this regard.

The meeting was attended by councillors from all five divisions and was declared opened by Reeve J. G. Dussault at 10:00 a.m.

Routine adoption of the minutes, financial statement and presentation of accounts was handled before noon recess.

Other business dealt with was as follows:

ALPHONSE HOULE

Councillor McManis advised the council that he had been advised that this man was reported as having suffered a stroke and his family was in need of help. Dr. Perreault was contacted but advised he had not been called in this regard.

Albert Verbeck, brother-in-law of the above, was contacted by council and he advised council that he would call on Mr. Houle immediately and that if aid was required he would call back before the meeting was adjourned.

1949 TAX SALE REPORT

Report of the tax sale held on Tuesday, Dec. 20, 1949, was given to council. Lot 21, Block 6, Plan 5812 BB was purchased by William Alexander Elliott off \$300.00 and was sold as this was the off-set price. There were no other bids.

An offer of \$5.00 per acre was received from J. Haenschke on 5.20 acres which forma part of S.W. 5-59-26-W4th—this offer was not accepted by council. All other parcels on sale were offered but there were no bidders.

Moved by Councillor Perrott that sale of Busby lot be approved by council and that Reeve Dussault contact J. Haenschke in regard to that portion of the S.W. 5-59-26-W4th as this acreage is adjacent to his land. Carried.

RAY CALF CLUB

Letter dated Dec. 27, 1949 was read to council as received from

Mrs. Lesley Brown, secretary-treasurer for the above Calf Club, requesting a grant.

Moved by Councillor Walker that they be advised that council will give this matter attention at the time the 1950 budget is being prepared. Carried.

CAMMILLE BODDZE

R.R.1. St. Albert, Alta.

The above requested use of the municipal caterpillar for moving a building. The matter was ordered tabled till the next meeting.

EDMONTON RURAL HEALTH UNIT

Letter dated Jan. 10, 1950 in regard to the services of Mr. McDougall and resolution as passed by the New England Home and School Association was read to council.

Moved by Councillor Perrott that they be advised that council is very much in favor of the resolution and as far as is known there is no intention of the services now rendered being discontinued, that the Department of Public Health is considering making the said services permanent in conjunction with the Health Unit. Carried.

AUGUST THIÉBERGE

Pickardville, Alta.

Letter dated Dec. 28, 1949 as received from the Department of Industries and Labor in regard to a Retail Flour, Feed and Hardware business by the above mentioned was read to council.

Moved by Councillor Walker that we advise the said department that we have no objection to a Flour and Feed License being granted the above, but we are unable to recommend another hardware license being granted in this hamlet. Carried.

M. C. HURLEY & A. JAMIESON

Pt. S.W. 26-25-W4—2 acres. Application by the above mentioned for a Receiving and Buying Station license at above point was read to council.

Moved by Councillor Schafers that we approve of the issuance of a license in regard to the above at the said location and that we advise the Department of Industries and Labor accordingly. Carried.

DEPARTMENT OF ECONOMIC AFFAIRS

Letter dated Jan. 3, 1950 was read to council as well as the December Bulletin of Trade and Industrial Enquiries.

Moved by Councillor Schafers that we advise them to forward the said bulletins to the Board of Trade locals of the district for distribution. Carried.

DISTRICT PLANNING COMMISSION

Moved by Councillor Perrott we appoint Reeve Dussault as our representative to explore the subject further in regard to the organization and operation of the proposed commission, that Mr. J. H. Holloway, Director of Town Planning, be advised accordingly. Carried.

MERCANTILE ROBBERY & SAFE BURGLARY POLICY

This policy expired Dec. 14, 1949 and the agent has not as yet given an answer regarding the new rate as requested. The matter was ordered tabled pending agent's answer to enquiry as to rates now

Read about the opening of the new SEED CLEANING PLANT IN MORINVILLE, to serve the entire Municipal District of Morinville. A tribute to the fine work and organization of Morinville Municipal District Farmers!—EDITOR.

Fr. Therrien at C.Y.O. Meet

VIMY. — Rev. Fr. Therrien, chaplain of the C.Y.O. group accompanied Vimy members to Barryhead for a meeting of the C.Y.O. of the Deanery of Westlock. Representatives were there also from Westlock, Barryhead and Clyde.

Main business on the agenda was introduction of the proposed constitution for the group. Other matters discussed included work of C.A.A. groups, importance of joining local junior F.U.A. and introduction of oratorical contests among local C.Y.O. units.

Further C.Y.O. activities in the near future include a social at Westlock tonight; moccasin dance at Vimy, February 12, and social at Clyde, February 17th.

"No Hostess" Party Held

ST. ALBERT. — On January 23 a "No Hostess" party was given for Jean Akins in the new school. Thirty-two women braved the cold to be present at the miscellaneous shower.

Everyone who heard about it and were interested were invited to come.

The room was decorated in peach and white narrow, twisted streamers that spread out from a centre circle in the ceiling, and large hearts with arrows and cupid.

After a few appropriate games and contests a sailboat was wheeled in to the tune of "Cruising Down the River" and "Row, Row Your Boat," loaded with many gifts from those present and some absent. As she unwrapped the gifts, Jean thanked each one individually.

Mrs. Akins gave a little "thank you" speech.

A lovely lunch finished the evening.

W.I. Shower for Jean Akins

ST. ALBERT. — On Wednesday, January 25th, the W.I. gave a shower at the Akins' home for Jean. Mrs. Akins was the past president of the W.I.

After a delightful evening of contests and lunch, Jean was presented with a lovely tea cloth. About 40 were present.

Jean is to be married at Namoo United Church on Monday, January 30th. A reception will be held at the parental home and a dance in the Community Hall.

Welcome Home!

ST. ALBERT. — Mrs. McMillan is home from the hospital but will be unable to teach for a while.

Cousin of Cardiff P.M., "Fougasse" In "Post"

CARDIFF. — The Saturday Evening Post last week carried an article on the 109-year-old "Punch" which is the standard periodical of English humor.

Editor of this famous paper, Kenneth Bird, is a cousin of Cecil Bird, postmaster at Cardiff, Alberta.

In his own art work Ken Bird is known as "Fougasse." The interesting story of his success is told also in the Post article.

Pastor and Wife Leave Alberta

CLYDE. — Rev. J. S. Clarke, who with Mrs. Clarke will shortly leave for the Coast, recently said good-bye to members of the Clyde United Church at the annual supper and church meeting.

Following the business meeting, presentations were made to the minister and his wife. P. G. Davies spoke briefly of the esteem in which Rev. and Mrs. Clarke were held by the congregation. Mrs. Robinson and Mrs. Nickerson made presentations to Mrs. Clarke and Mr. Davies to the retiring minister.

Pleads Not Guilty

MORINVILLE. — Norman Stanley Gowing pleaded not guilty to a charge of manslaughter. This charge arose out of the death of Arthur Farrow, Bible worker of the Seventh Day Adventist Church of Edmonton, at Morinville, December 7th.

MORINVILLE DRY CLEANERS PLANT OPENED

MORINVILLE. — On Tuesday, January 17th, at 1 p.m., many startled citizens heard a new whistle. It was the formal opening of Morinville Dry Cleaners plant.

It was a happy moment for our young pioneers, Gustone St. Ongeand, Raymond McDonald, co-partners in this new Morinville business. Situated on the north-side of Groudin and west of the Municipal Office, it is of cement block construction, and fully equipped with modern and up-to-date machinery.

All of the staff are local personnel. Miss Beatrice Ethier, checker, Miss L. Ethier, press, Mrs. Louise McDonald, spotter. Gus is on the fast track and McDonald, as usual, can always give the orders, and the big tumbler a whirl.

It is a much needed business for this town and district and we wish them great success.

MORINVILLE LEGION NEWS

MORINVILLE. — The opportunity is taken, at this time, to thank the people of Morinville and the district on behalf of the Canadian Legion Morinville Branch No. 176 for their wonderful support of the recent carnival and queen contest.

A sincere vote of thanks is also being extended to the Lions' Club, the C.Y.O., and the Sports Committee for their sponsoring of the carnival queen candidates.

A very hearty "Thank You" to the girls for the splendid work that they did in running for carnival queen.

The support and co-operation shown by the different organizations, and the sportsmanship of the queen candidates help to cement a bond of friendship and well-being for the betterment of the community as a whole.

The proceeds of the carnival, as you know, have been put into a building fund which will be used exclusively to build a hall, and if everything goes right should be finished this summer. The hall was delayed last year due to the non-arrival of cement and other building materials. The proposed hall will have a large, high basement for indoor games, such as badminton, volleyball, ping-pong, gymnastics, and club rooms suitable for meetings, banquets, study groups, etc.

It is the intention of the Legion to place the facilities of the proposed hall at the disposal of any and all organizations in the hope that the Legion will be able to do its bit to help cement a better community spirit, and to assist in the solving of youth problems confronting the town.

At the last election meeting the officers elected for the current year are as follows:

President, John Hruska.
First vice-president, Art Stapleton.

Second vice-president, Larry McCall.
Secretary-treasurer, Louis Calder.

Immediate past president, Alex Reid.

Executive committee: John Middleton, Larry Shea, Herb Saunders and Lawrence Brochu.

Entertainment committee, Larry McCall, Lawrence Brochu and Morris Milner.

Public relations, A. R. Martel.

We hope to publish a periodic newsletter in the Morinville Journal of Legion affairs which will be of interest to our community.

Tea Held For Miss Auger

LEGAL. — Miss G. Auger has resigned as clerk at the Bank of Nova Scotia, Legal, and is being replaced by Miss Edna Boisvert.

Prior to Miss Auger leaving to enter a nurse's training school at the General Hospital, Edmonton, she and a number of her friends were entertained at an afternoon tea by Mrs. F. G. McCann.

Visiting Curlers Good Sportsmen

ST. ALBERT. — Curling rinks were here from Morinville, Namoo, St. Leon, Villeneuve, on Sunday.

All challenge games were thoroughly enjoyed by players and spectators.

EGG FLOOR PRICE

The price of eggs, which has been slumping steadily since it was announced that Britain would not renew her Canadian egg contract reached new low points in January. To the producer, Grade A large eggs were only 26 cents per dozen, with graduated scale down to 16c for C grades.

It is utterly folly for the people of Canada to let a condition like this exist for an important trade such as poultry produce. The farmers of Alberta who have invested large sums of money and industrious energy in building up good laying flocks with corresponding investment in buildings and equipment are entitled to sell their product on a firm basis.

A few months ago eggs were selling for 60c per dozen. We don't think a floor price of 60c is right but neither do we feel that 16c to 26c is a fair price either. The whole price structure had deteriorated due to a small surplus of about 15% which formerly had been going to Britain.

Agriculture Minister Gardiner has come to the rescue with announcement of a firm floor price for eggs. At the end of the year the government will buy any surplus left over in produce warehouses at a figure starting at 38c per dozen for Grade A large, downwards. This will keep the retail price in the moderate 40c-50c price range.

We confidently believe that the government is not likely to have to buy a great quantity of eggs. Egg prices would have climbed upwards with increased home consumption and with other uses for eggs, such as the industrial plant going up in Edmonton, there is not likely to be any burdensome surplus.

Meanwhile, producers do not need to suffer financial loss because the dominion government has announced a sound plan of price support. Farmers are now assured that their work and investment in raising poultry will not be lost through ruinous prices caused by a small farm surplus.

STARVATION THREAT IN SPAIN

While Canadian farmers are concerned about the small surpluses of farm products which result in depressed prices, the Spanish government has appealed "to any country whatsoever" to acquire 500,000 tons of wheat, corn and rye, between March 1st and June 30th, in order to avert a famine until Spain's 1950 crops are harvested in June and July.

The public appeal was issued by the official organ of the Spanish Ministry of Commerce and Industry, with the offer to pay in dollars, in convertible Spanish currency or by a barter agreement, whichever the supplier preferred. Other sources point out that, in October, Generalissimo Franco appealed to farmers to increase their wheat acreage because Spain is now forced to import foodstuffs. Until recently Argentina was expected to provide the wheat and other grain but the commercial treaty between the two countries has broken down.

In the general discussion of the Spanish appeal, newspaper reporters tell of an approach to the Soviet government, which, it is said, has been asked to send grain to Spain in return for wolfram and mercury. The suggestion is made that the Spanish authorities are putting out the idea that Soviet Russia may try to establish contact with Spain unless there is some improvement in relations with the western powers. This must represent something like propaganda for foreign reading because it is contrary to the idea that has been dimmed into the Spanish people by the present regime.

We are not interested in the political implications of the Spanish appeal but we cannot forbear expressing the opinion that, if the Spanish population is facing actual famine, some way should be found to sell the necessary foodstuffs to the Spaniards. While we thoroughly disapprove of the Franco regime and think that the sooner it is overthrown, the better it will be for Spain and the world, we do not countenance the use of famine and starvation as a weapon to produce discontent and rebellion.

While it is tragic for Spain to be faced with a famine, which may be in large part due to the mismanagement of the present regime, the population of the country is entitled to the consideration of the world. Certainly, political motives should not, and do not, justify the starvation of innocent, men, women and children.

WHEN DOES A CENTURY BEGIN?

There is a general idea that 1950 marks the first year of the last half of the twentieth century but the point is made by some writers that, after all, the century began with the year 1901 and that, consequently, the first fifty years end on midnight of Dec. 31, 1950.

Certainly, if a man would count out a hundred units of anything, from apples to automobiles, he would begin with number one and end with number one hundred. If the same rule applies to the years of a given century, then the first half of the present century would not come to a close until the end of 1950.

General usage, it is true, considers the turn of a century to begin with the "00" year and, under this theory, the hundred years would come to an end at the close of the "99" year. While this may be technically incorrect it is the custom.

Scriptural Meditations

By AINSLEY BLAIR

"Those who are the partakers of the grace of Christ will be ready to make and sacrifice, that others for whom He died may share the heavenly gift. They will do all they can to make the world better for their stay in it. This spirit is the sure outgrowth of a true truly converted. No sooner does one come to Christ, than there is born in his heart a desire to be known to others what a precious friend he has found in Jesus; the saving and sanctifying truth cannot be shut up in his heart. If we are clothed with the righteousness of Christ, and are filled with the joy of His indwelling spirit, we shall not be able to hold our peace. If we have tasted and seen that the Lord is good, we shall have something to tell. Like Phileas when he found the Saviour, we shall invite others into His presence. We shall seek to present to them the attractions of Christ, and the unseen realities of the world to come. There will be an intensity of desire to follow in the path that Jesus trod. There will be an earnest longing that those around us may behold 'the Lamb of God, who taketh away the sin of the world.'"

"—Steps to Christ."

SMILES

"Yes, but I would rather he had something certain."

Here's To The Yorkshire Hog!

Saskatoon Star-Phoenix

Of all the creatures, human and otherwise, who served mankind with distinction during the last few years, the humble Yorkshire hog has perhaps been given the least recognition.

Men and women were granted awards for their wartime bravery. Dogs, mules and even a pigeon and a cat were presented with medals. But the animal that helped us up his life by the hundreds of thousands to help Britain stay alive has gone without reward of any kind.

Indeed so short is the memory of some Canadians that they are even suggesting that he be permitted to suffer the final indignity of the gallows. They admit that he did a good job during the war but they say that like the blacksmith he is obsolete, his period of usefulness is ended and he is destined to disappear.

They argue that the quality bacon, the quality of which the Yorkshire is the top breed in Canada, was developed only in response to the demands of the British market. Now, they say, that market has largely disappeared and there is no longer the compelling need for Canadian farmers to produce this type of animal.

But this kind of talk reckons without two highly important factors, the Canadian housewife and the soy bean. Because of them, there is good reason to suppose that the predictions of disaster are nonsense and that the Yorkshire hog, far from falling a victim of post-war reconstruction, will emerge as full of life and with as many twists in his tail as ever. If he does, a good many people in Canada, government officials, farm journal and packing house representatives, will be very happy. After spending the best part of their lives in the often thankless but successful task of producing the bacon, they would hate like poison to see their good work come to naught.

The main virtue of the Canadian bacon hog, as contrasted with the four-footed tubs of lard favored in U.S. farmers, is that he has no excess fat and is a real meat producer. He is long and streamlined and the bacon and pork chops made from him are delectably edible with good lean meat.

NOT THIN SLIVERS

This quality enabled him to do more than win friends in the British market. Without their know-

Trend To Warmer Weather?

By T. W. PUE

Nearly everybody in Alberta has heard older persons tell how mild modern winters are compared to the early pioneer days. Winters are not as cold as they were, they say, and down in the eastern provinces this winter hasn't so far been an exception to the old times' contention.

Up until early December we had a very mild fall in Alberta. That this has been a trend for several years is proven, in one slight instance, by the fact that Lac la Piche has been frozen over successively later each year.

We wonder if the old timers have anything on us since December 10, however. My experience in Alberta is only in its sixth winter but this is colder than a previous winter.

The old timers, who tell of the cold winters of their childhood, have been confronted with assertions that they remember the severe winters and forget the pleasant days.

Some have insisted that houses are better built today, that the people live indoors more than formerly and that consequently, what seems like warmer weather is merely the natural reaction to changed conditions.

The expert weatherman, however, is not so sure about the matter and some of them admit that the old timers may be right. Just now, there is some amazement in expert circles over the temperatures above normal that have been experienced in the eastern part of the United States since March, 1948. Some of them, such as the Jerome Namias, head of the Extended Forecast Section of the United States Weather Bureau, admit that there has been a definite 50-

year trend towards slightly warmer weather over many areas of the northern hemisphere. It is quite possible, as some meteorologists believe, that we are in a period of "climatic amelioration" with temperatures moving upward. Nearly everybody realizes that the earth absorbs its heat from the rays of the sun and that there is variation in the absorption due to changes on the sun. Obviously, if, for some reason, the earth retained a greater amount of its absorbed heat than usual, the temperature of the surface would move upward.

That something like this has happened is the opinion of G. S. Callendar, an English meteorologist, who says that a slight increase in carbon dioxide in the air tends to prevent "outgoing radiation" of the sun's heat and that the globe retains more heat just like a hothouse absorbs and retains heat from the sun. Whether this is correct or not, there are other theories, such as the belief that, for some reason, more of the heat from the sun is being moving over the continents.

Regardless of the decision of the experts, it seems to be no doubt of the abnormally high temperatures since March, 1948. Certainly, in the eastern part of the United States, there have been higher-than-normal temperatures during the last two winters and the same conditions seem to have obtained so far as the present winter has developed.

No one knows whether the present trend will continue or not. Mr. Namias says that there has been an abnormal containment of cold from Alaska, Yukon and Northern Canada. While reports show temperatures far below zero, he explains, "this cold air is pretty generally trapped by the exceptionally high speed of the prevailing westerly winds." He expresses the opinion, however, that the cold air may build up and break through in time to give the east some colder weather in the weeks ahead.

ing it, he influenced the Canadian housewife tremendously. He gave her a roast of pork that would not melt away in the oven and bacon with some real strips of lean on it, not just thin silvers embedded in a mass of fat.

He gave her an appreciation of quality in pork that she never had before. She will continue to demand that quality and the premium which she is prepared to pay for it will make the raising of good Yorkshire hogs still worth the producer's while.

Meat packers, too, will want to have nothing to do with the massive lard-hog type. The reason for this is strikingly shown in the latest market letter of the Industrial and Development Council of Canadian Meat Packers. It explains that in the old days, both here and in the United States, it was the custom of packers to trim away large amounts of fat from the hog carcass. This was profitable in that the fat would be rendered into lard and the lard would be sold at a good price.

But the increasing production of soy bean and other vegetable oils has spelled the doom of that happy arrangement. The extent to which this competition has,

over the years, taken the profit was shown by a speaker at the recent annual convention of the American Meat Institute in New York.

NOW A LIABILITY

He said that in the decade after 1910 lard was selling at \$5.50 per hundredweight, above the weight price of hogs. In the next decade the differential had fallen to \$3.00. Now lard is actually worth about \$4.00 per hundred less than the cost of the hogs from which the lard was made.

Thus the lard on a hog has become a liability and the U.S. packer, who is stuck with the heavy-lard types, is spending a good deal of time worrying about the problem they have created. But in Canada, thanks to the educational work done years ago, there is no such problem. The bacon hog has supplied a ready-made answer.

The old battle between the lard hog and the bacon hog is over, won by the streamlined fellow with the aid of Canada's cooks and vegetable oil. The Yorkshire, as Canada's premier bacon hog, will be right up there in front when the prizes of victory are being handed out.

THE OLD HOME TOWN

By STANLEY

PRODUCE COMPANY CREATES EGG MARKET WITH PROCESSING PLANT

EDMONTON.—With expiration of the British egg contract, Canadian poultry producers have been faced with the question: how to market the excess 15 per cent of egg production which has quickly depressed the price. Several possible steps, such as establishment of a floor price, encouragement of greater home consumption and export markets to other countries can all help. But "Jake" Superstein, youthful owner and manager of the Edmonton Produce Company Limited, has another answer.

Mr. Superstein, in an announcement this week stated that his company is assisting in establishment of a new company, to be known as General Egg Products Ltd., which will process eggs for industrial purposes.

This is not to be confused with processes of manufacture which

supply dry or frozen eggs for retail purchases of food. The products of the new factory, which is to be operated in Edmonton under the general management of H. S. Samson, will be for industrial purposes only.

NUMEROUS NEW PRODUCTS

Many industries will be served by this factory, which is the only one of its kind in Alberta. Mr. Samson, who has had experience in this business in other parts of Canada stated that dried yolk will

be processed for sale to ice cream manufacturers and the baking industry. Dried albumen, in three forms, will be sold to candy making and fine confectionery manufacturers.

By-products of this industry will be supplied to silk printing, paper industry, textiles, lithography, leather and tanning trades. There are many outlets for by-products in Canada.

FUTURE IN EGG BUSINESS

The immediate result of the

operation of this factory in Edmonton will be that egg producers in Alberta will have a continuing extra market for their produce. This should result in a more stabilized market, with higher prices. Mr. Superstein believes panic is unjustified and liquidation of some flocks could lead to a shortage of eggs. Flocks should not be killed off.

NO EGG SURPLUS

There is no great surplus of eggs at present, he said. Domestic

consumption is increasing and after the first shock of loss of the British market which reduced prices out of all proportion to the practical value of that market, Mr. Superstein believes prices will come up again.

"We have confidence in our business and the farmer producers of Alberta who are our partners in it," he concluded. "That is why we are investing thousands of dollars in the future of the egg business with the new General Egg Products Ltd. plant."

Egg Producers!

Get HIGHER PRICES for Your EGGS

At the EDMONTON PRODUCE COMPANY LTD. you can always be certain of getting the highest prices possible. A private company, with the best interests of producers and the industry at heart, the Company always pays the highest possible prices on ungraded eggs.

For instance, on Wednesday, January 25th, before the Government Floor Prices were announced, we were paying, f.o.b. Edmonton, the following prices:

A Large	28c
A Medium	24c
B	21c
A Pullet	20c

The Edmonton Produce Company Limited has and will always follow the policy of the highest possible return to the Egg and Poultry Producers at their head office and all their branches. Producers can get the latest price quotations by contacting the

Wetaskiwin Hotel Man Loses Pigs

WETASKIWIN.—Eleven second litter sows, ready to farrow in from three to four weeks and 28 gilts, all registered Berkshires, died mysteriously on the show Curt Smith Hog Ranch, adjoining Wetaskiwin on the Edmonton-Calgary highway between the afternoon of Jan. 11 and the morning of Jan. 12. The loss is estimated at between \$6,000 and \$8,000.

Eight other pigs in the same enclosure are perfectly normal and healthy. No reason has been ascribed for their sudden death, but because of its suddenness and the fact they had not previously shown any sign of illness, it is not believed to be an epidemic disease.

Several carcasses have been taken to the pathological division of the department of agriculture, and definite information is expected to be forthcoming soon.

Government to Set Floor Prices

Last Thursday, Hon. Jas. G. Gardiner, Dominion Minister of Agriculture, announced that floor prices of "32c to 35c per dozen" will be set for eggs.

This government action may be partly due to the efforts of farm groups and produce companies to assure the poultry industry of a sure market at firm prices.

Farmer Delegates To Winnipeg

Alberta's eight-member delegation left Monday night for Winnipeg to attend the annual agricultural conference of the four western provinces in Winnipeg January 25th to 27th.

Representing the Alberta Federation of Agriculture, the delegation is composed of Roy C. Marler, of Bremner, president; George E. Church, Balzac; Karl V. Kapler, Ström; E. H. Keith, Edmonton; Mrs. R. B. Gunn, Edmonton; Carl J. Stimpfle, Egmont; George Tindall, Jr., Fabryan; and A. R. Hadland, Baldonell, B.C.

Following the Winnipeg parley, Mr. Marler, Mr. Church and Mr. Keith, who are Alberta directors, will leave for Niagara Falls, Ont., to attend a five-day annual meeting of the Canadian Federation of Agriculture.

Shown above is the Fleetline Deluxe 2-Door Sedan.

**What Do You Know
About Eggs?**

By RUTH WHALEY
District Home Economist

We may be soon hearing about an "Eat More Eggs" campaign to offset the drop in egg prices which has been such a blow to poultry people.

When you buy eggs do you realize what value you are getting? Eggs are often considered just a meat substitute, but actually have advantages which you may have taken for granted. First of all there is little waste—only the egg-shell. Then eggs are quickly and easily prepared for the table. They appear not only in the main dish, but in salads, or dessert as well.

The digestibility of eggs depends upon their freshness and method of cooking. Eggs are espe-

cially good for children since they do not contain the stimulating extractions found in meat. Next to fish oils, egg yolk is the best source of vitamin D "the sunshine vitamin," which is another good reason why eggs should be a "must" on your shopping list especially during the winter months. And lastly the fat in eggs is easily digested. In fact a single egg contains not only protein, fat, iron phosphorus, calcium, vitamin D, but Vitamin A as well.

It pays the producer to market high quality eggs. The consumer, too, wants high quality eggs for eating and baking. The good cook knows that high quality eggs produce stiffer custards and better, lighter cakes.

Storage of eggs is important for high quality. Keeping eggs near onions, cabbage, garlic, gasoline, coal oil or in a moldy musty place may give an unpleasant flavor or odor to the eggs. Holding eggs in a dry room may cause shrinkage. Thin or porous shelled eggs are especially apt to shrink and again lower the grade. Eggs placed in a dry, warm case lose moisture rapidly. This too, may cause the grade to be lowered.

Extra large or long eggs should be placed in the outer edges of the fillers. If there are many big eggs, they should be staggered with smaller eggs for a safer pack. Eggs should always be placed in the case small end down. If the large end is placed down, the air cell is likely to be loosened, resulting in a lower grade. When yolks are displaced or the air cell broken, eggs deteriorate more quickly.

If you have trouble with egg shells cracking while cooking eggs in the shell, cover the eggs with cold water and bring to the boil. The eggs will be soft cooked.

To remove the shells easily, plunge hard-cooked eggs in cold water. This will prevent a dark ring around the yolk too.

Of course you never "boil" eggs, but cook the eggs in the water kept just below the boiling point. In case you've forgotten, it takes eight to ten minutes cooking for soft-cooked eggs, and thirty minutes if you want them hard-cooked.

**Duke And Duchess
To Visit Alberta**

OTTAWA. — There will be no special fanfare for the Duke of Windsor when he arrives in Canada to visit his Alberta ranch this year.

A government source said the fact that the duke once was King of England will have no effect on the way he is treated when he and his wife arrive in Canada.

The source said the duke and duchess, now in the United States, will be classed as private individuals with no official status. He adds that they will have to comply with passport regulations just the same as any one else.

**Slight Loss In
Ranch Mink Prices**

Ranch mink, which advanced 35 per cent on standard, at the opening auction of the season eased back to five per cent on large pelts, 10 per cent on small, at the late December auction held, due to the extremely large offering. Largest male pelts sold for \$24.50, average quality mediums \$18 to \$21, and female pelts \$10.50 to \$14. Silverblue pelts averaged \$13.50 to \$18.50, according to size.

Wild furs were in best demand, wild mink topping at \$45 and averaging \$37; ermine topping \$3.75 and averaging \$1.80; squirrel making 47 cents with average for first and second grade about 40 cents. Muskrat of large size sold at \$1.60 to \$1.85, medium and small \$1.10 to \$1.40, damaged 50 to 75 cents.

Andy Tomasic, righthand twirler, who had an on and off season with the New York Giants last season will do his hurling chores this year on behalf of the Jersey City Giants of the International Baseball League. The Giants sold Tomasic to their farm club, on an option of a recall should he regain his pitching form.

LOUISA'S LETTER

Dear Louisa,—
I am a young girl very much in love with a boy who says he loves me. Not long ago he became mad at me and started going with another girl who had run after him while I was going with him. She's just the kind who is not satisfied unless she is taking someone's boy friend away from her. He says he doesn't love her. If he doesn't, why does he go with her? I sit at home and worry about him. He wants me to marry him but I don't know what to do.

One reason that has kept us from marrying before is that he is crazy about children but I don't want any. Maybe the way he does he is not worth worrying about but I do because I love him.

M. A. R.—Georgina.

ANSWER:

I certainly wouldn't consider marrying anyone I couldn't depend on, if I were you. Surely if a man can't keep his promises before marriage, he won't improve just because of the ceremony.

I don't think you would be happy together, anyway, because a man who loves children would always feel cheated if he married a wife who did not want them. Children make for a more normal and fuller life, as a usual thing, and people who hold such different views on such a vital subject should never marry.

My advice to you is to stop staying at home and worrying. Get out, meet other people and perhaps you will find someone whose views on life are like your own.

Louisa.

Dear Louisa,—

I am a freshman in college and go with a girl who is a sophomore. I like her very much and wish to marry her after I finish school but she is very anxious for us to get married now. She says our parents could just keep on sending us to school and everything would be all right but I feel that we are too young to get married and that it would not be fair to our parents. She says I am old fashioned and do not love her as she does me. What do you think?

Bewildered.—N.C.

ANSWER:

Keep your head on your shoulders, son, and don't let some little romantic girl get you into a situa-

tion that will be too much for you to contend with. To begin with a freshman, unless he is one who interrupted his education to spend several years in the army, is too young to take on the responsibilities of a married man. He should concentrate on getting an education and preparing himself for life.

In the second place, as you say, it is not fair to your parents. They are probably doing without things so that you can go to college, and to have you take on a burden that you cannot carry would be unfair and distressing to them.

Don't be influenced by some little girl who thinks it would be just fine to have a nice boy paying her bills.

Louisa.

Additional Oil Income For Province

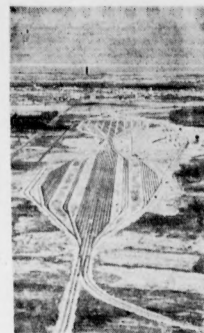

Alberta government can expect another huge slice of oil revenue following the announcement Friday that another 60 quarter sections of choice oil land leases are being put up for auction. Mines and Resources Minister Tanner announced closing date for receipt of bids is Feb. 16.

Included in the offerings are five quarters in the ne wSimmons sector, near Bruderheim, which oil men hope is a southern extension of the Redwater area. There are two quarters in the easetrn northern and three in the northern portion of the rich Redwater sector. Also in the Redwater sector are two quarters on which are a 15 per cent over-riding royalty as well as the purchase price of the lease. In other parts of the province 47 quarters are offered for lease. Besides these, one quarter will be offered in the Stettler area.

Four of these 47 quarters are in the Hanna area, two in the Hecla area, 10 in the Camrose region, 20 northeast of Trochu, four in the vicinity of Vimy and seven in the northeast section of the province along the Athabasca River beyond Wandering River.

Anglo-Canadian Oil Company Limited and Home Oil Company Limited, two of Canada's leading independents are reported to have recovered the major part of their Redwater investment in crown reserve acreage and development. They will start rolling in profits in the current year.

REMOTE CONTROL FREIGHT YARD

Canada's most modern freight yard, pictured above, the Canadian Pacific's \$2,500,000 "hump" retarder yard in Montreal, will be completed in 1950. The yard, with 76 miles of track and the only one of its type in the country, will be one of the first on the continent to make use of a new system of "push-button" switching by which it will be possible to set all the switches necessary to move a car into a certain track merely by pushing one button in a control tower. Electrically operated retarders will control the speed of cars being "humped" in the classification section of the yard.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

**Jet Plane Flight
Into The North**

OTTAWA. — Canada's first regular peacetime fighter squadron will head for the Canadian-American Arctic exercise Sweetbriar next Tuesday with two big North Star transport aircraft to mother and nourish their jet fighters on the 3,000-mile journey.

Twelve Vampire jets of Squadron 410 of the R.C.A.F. are scheduled to take off from their base at St. Hubert, Que., near Montreal, for Whitehorse, Yukon, with numerous stops along the route.

Their pilots are a mixture of wartime fighter aces and young, peacetime-trained newcomers. The squadron was set up about a year ago as the first of an unspecified number Canada will have on a standing basis for her immediate defence.

The North Stars will move along a step in advance of the jets, carrying 50 ground crew personnel and 10,000 pounds of servicing equipment to keep the fighters in trim.

The group will be based at Whitehorse for the combined exercise, involving an estimated 5,000 men from air and land forces of the two countries.

**Bull Brings Owner
\$10,000**

CALGARY.—Ten thousand dollars is a lot of money to pay for bull—but they pay it.

In Calgary that prize Hereford bull calf owned by Arthur Crawford-Frost, of Nanton, Alta., brought a record \$10,000 at the annual Denver, Colorado, stock show.

The bull was sold to William Sidney, of Escamptown, Wyoming. The animal was called Carson Royal Dandy 12D.

The previous record for a Canadian-bred Hereford bull was \$6,000, paid at the Calgary Livestock show several years ago.

Life On Planets Is Held Possible

CHICAGO. — Possibility that life might exist on a billion or more planets throughout space was raised by a German scientist here.

Carl F. von Weizsacker, visiting professor of physics at the University of Chicago, expressed the view that billions upon billions of stars found in the heavens may each have their own planets revolving about them.

Professor von Weizsacker outlined his theories at a dinner meeting of the citizen's board of the University of Chicago.

He pointed out that the Milky Way, or galaxy to which our sun belongs, is made up of more than 100,000,000,000 stars. There are some 100,000,000 galaxies similar to the Milky Way.

With this vast number of suns throughout space and the similarities between the stars it is not unlikely that planetary conditions identical to or similar to earth exist elsewhere, he holds.

The 1,150-mile Edmonton-Lake Superior oil pipe line moved a step nearer completion this week when the first shipment of 16-inch diameter pipe left Welland, Ont. The pipe—largest ever produced in quantity in Canada—was ordered by the Interprovincial Pipe Line Co., and Page-Hervey Tubes Ltd. built a new pipe mill to make it. Formerly pipe of this size had to be imported.

This modern continuous welding machine closes the seam in the 16-inch pipe (lower right) as it rolls under the big copper wheel. Welding is electric, with 3,000 amperes used in the process. The white liquid flowing over the wheel is an oil-and-water cooling mixture. Watching the pipe emerge from the machine is assistant welder Mike Labeau.

Small Surplus Depresses Products Prices

Discussion of the egg market, said depressed below cost of production due to surpluses that are often small, provided the chief topic at the annual meeting of the Alberta Poultry Federation for which came a declaration of guidance for producers. President H. S. Pegg of Hayter presided.

The federation meeting, attended by delegates from 12 producer organizations of the province, feeling that the industry had been upset by the recent market price break, voted to recommend as a steady influence for producers that the various branches adopt a 10 per cent curtailment in operations. This would take the form of a 10 per cent marketing of flocks and a like reduction in chick purchases.

Review of the facts presented to the meeting here on Wednesday showed that producers lost export outlet taking from 10 to 20 per cent of the egg production but have the job of supplying the domestic market.

Unanimous approval was voiced for early establishment of a provincial poultry marketing board to operate with those of other provinces under a national board similar to the Canadian wheat board. It was argued this was necessary to maintain stability in the poultry industry.

The dominion marketing department was advised that safeguards were needed in any proposed changes of grading so that any good grade eggs coming out of cold storage be easily identified from fresh A's.

Plans were made to revive the publication of a joint yearbook. Membership was widened to provide for membership - at - large which group could send one voting delegate to annual meetings.

Mr. Pegg was re-elected president. Eric Triska first vice-president. H. G. Tester of Innisfail second. Mrs. J. Roberts, Edmonton, is secretary-treasurer.

Doctors Examine Ailing Pontiff

VATICAN CITY. — Several medical specialists have examined 76-year-old Pope Pius in the last few days. Vatican officials disclosed Friday.

They said the specialists were seeking the cause of rheumatic pains which have for some weeks prevented the pope from taking his daily walk in the Vatican gardens.

Officials said the specialists' alarm."

Sunday School Lesson

UNTO ALL MEN
International Sunday School Lesson for January 29, 1950

MEMORY SELECTION: "Go therefore and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, teaching them to observe all that I have commanded you; and lo, I am with you always, to the close of the age."—Matthew 28: 19-20.

Lesson Text: Acts 10: 17-20, 24, 34-43

In the early years all the members of the Christian faith were of the Jewish race. This was natural because Jesus worked practically his entire life among the Jews. The only Christians were Jews who still held to the traditions of the fathers but who went further and accepted Christ as the fulfillment of the expected Messiah.

So, it was inevitable that this early group of Christian believers would retain and be affected by the Jewish idea of exclusiveness which had been a dormant national trait for some centuries.

However, while the very excellent health regulations prescribed by Moses had been beneficial to the race, by this time they had become a superstitious religious observance which threatened to prevent the extension of Christianity to all mankind.

These Jewish Christians, when the problem of admitting Gentiles into the Christian faith was presented, believed that it would be necessary for these adherents of other races to enter the new faith, as the old, through certain ceremonies of Judaism, or else they felt that they must lose all the elevating and glorious religious experiences of the prophets and teachers.

So, this idea of exclusiveness came into direct opposition to the teaching of human brotherhood by Jesus, and threatened to prevent the free and easy admission of Gentiles to the Christian faith. Our lesson today reveals one of the steps which led to the breakdown of this prejudice and barrier.

Peter, the leader of the Apostles, was engaged in religious work at the Jewish seaport, Joppa. Here he lived with a man named Simon, who was a tanner, following a trade regarded as ceremonially unclean by the Jews. Peter's presence in this

house indicates that already he was becoming more liberal than many of his fellow Jews, for they would have refused to associate with the tanner.

Here Peter had the familiar vision of the sheet lowered from Heaven filled with all manner of animals, and he refused the divine command to eat, considering some unclean, according to his traditional doctrine. However, he was advised that in the eyes of the creator all were clean. While the material of the vision was animal, the application of the lesson was to mankind. Just about this time messengers were announced and Peter received a call from Cornelius.

Cornelius was a Roman army officer, stationed with thearrison at Caesarea, about thirty miles north of Joppa and capital of the Roman province. Peter went to Caesarea where he found Cornelius who explained that God had advised him in a vision to seek for Peter. This Cornelius was a devout man, much given to prayer and charity, and an honest seeker after divine truth. Peter then realized that "God is no respecter of persons, but in every nation he that feareth him and worketh righteousness is acceptable to him."

When the Jewish Christians heard of this visit to Caesarea they took Peter to task, feeling that he had violated one of the fundamental necessities in thus going to people regarded by them as unclean. Peter told the story of his vision and visit to Cornelius, closing his account by relating the fact of the coming of the Holy Spirit confirming his work and the faith of Cornelius and his household.

With God thus placing his seal of approval on the extension of the Christian faith to these members of the Gentile world, Peter could put the question to his hearers: "Who was I to withstand God?" His answer was to acquiesce.

The Christian world today is indebted to Peter for having courageously opposed and conquered at this time the Jewish attitude of hostility to other races. Paul carried the application of his doctrine to its full logical conclusion presenting the surprising reality that a Jew who had been reared and trained for leadership of an illiberal group becoming the champion of human brotherhood and equality of all men before God.

The Christian world today needs to fully appreciate the error of holding contempt for other races and people. It should realize that God loves and accepts righteousness, right living and thinking, and an honest search for truth wherever and in whomsoever these are found.

C.C.F. Member Attacks Marketing

NORTH BATTLEFORD, Sask.—Premier T. C. Douglas of Saskatchewan said recently the Agricultural Products Marketing Act of 1949 does not provide for national marketing boards, it merely delegates to the producers' boards in each province the power to market interprovincially and internationally.

He made the statement in an address to a C.C.F. rally supporting the candidature of Alec Connors in the Feb. 3 byelection in the provincial constituency of The Battlefords.

Mr. Douglas said that under the pretence that the federal government no longer has the constitutional power to continue the present marketing system, Agriculture Minister Gardiner "is flouting on the producer the entire responsibility for marketing his own products."

Fashions

There's no need for the rain to get a girl down, not with all those clever, smart and colorful weather togs available. They come in many price ranges, and all are remarkably good values. This raincoat, ready to double as a topcoat, is of woven rayon, water-repellent, glen plaid. F.ured are the patch pockets with their V flaps and slight pouch effect. A deep underarm permits a suit underneath. The belt is optional, and when worn without it, the coat is boxy in front, flared in back.

New Gas Fields Discovered

More gas has been found in Alberta and a renewed effort to find more is under way.

At Willingdon, 53 miles east of Edmonton and 15 miles north Imperial Oil on four separate tests of the Viking sand, prolific gas reservoir of the north, obtained gas flows aggregating 4,000,000 cubic feet a day. The gas was found in the section 2,188 to 2,205 feet and was incidental to the well's purpose which is oil in the Devonian.

Willingdon No. 2 is a follow up to the capped gas well, Willingdon No. 1, about three miles to the east of Excelsior, where late last week Cardiff Giant gave up gas at the rate of 6,000,000 cubic feet a day.

Electric Prices Down While Others Go Up

To the Canadian consumer, the cost of electric energy stands alone as the only item of any consequence in the overall cost of living that has decreased from the Dominion Bureau of Statistics normal of the years 1935-1939 to the present time.

From figures in the Canada Year Book we find that Domestic Electric Light Rates declined from the 100 per cent of 1935-1939 to 89½ per cent in 1947, a decrease of 10½ per cent.

This achievement of the power producers was not the result, as one might expect, of lower costs in salaries and wages, for material and equipment, and for fuel or for any combination of these. On the contrary they had to meet

and absorb staggering increases in all of these, as had all other industries during this period.

How were these adverse factors overcome? First the economies incidental to central generation decreased costs. This was reflected in lower rates to consumers and this downward trend stimulated individual to the extent that, on the average, it was approximately doubled from 1937 to 1948. In the aggregate, then, pole lines in operation, in 1937, which were then loaded to less than half their capacity, are now carrying twice the load of that year with a minimum of added cost. In other words, the overhead cost of this distribution is at in half with the slight exception noted above.

"WHAT'S YOUR BEEF?"

What's your beef? CBC announcer DON SIMS (left) asks the perennial question of film-star-singers MARY BETH HUGHES and DAVID STREET on a recent edition of the "What's Your Beef?" program, heard Monday to Friday on CBC Trans-Canada. Like the thousands of Canadians who have been interviewed on the program the famous Hollywood couple appear to enjoy airing their "beef".

While this is interesting, we are naturally more concerned with what may be a more localized picture in the province. To illustrate this, let us look at the history of electrification in Stettler.

In 1911 a steam plant was installed by the Municipality and continued to serve its people till 1928 when, as a result of a franchise agreement, Canadian Utilities Limited took over. A new rate schedule was immediately put into force and the extent of the savings to the consumers can be estimated by this illustration. Under the old rate structure, one month's residence consumption of 100 KWH would have cost \$15.12; under the new schedule, the cost dropped to \$6.53.

The records of Canadian Utilities, in the succeeding years, show constantly decreasing average costs per KWH to the consumer. This average, of course, includes all classes of users and all variations of amounts consumed. In 1937, this average was 6.5c per KWH; by 1941, this had dropped to 5.5c and in 1948 a new low of 3.9c was reached.

It may seem a contradiction that, despite this decreased unit cost, the average consumers bill has increased by about one third. The simple fact is that he is using more than double the energy he did previously in his constantly expanding realization of how desirable extension of service may be for economic reasons or for the higher standards of comfort and convenience that follow.

A typical example of where electric rates have gone down, is at Mannville, Alta.

Canadian Utilities took over in 1928. Based on the rates in effect prior to the take-over, a month's bill for 100 KWH would be \$2. Immediately subsequent to take-over, \$10.35; In 1938, \$7.50; In 1948 and still effective, \$4.85.

This represents a decreased cost per KWH of from 25c to slightly over 4c over the period under review.

The Northwest Territories have a total area of 1,300,000 square miles and an estimated population of 18,000.

OH, SO THAT WAS IT!

"Can you imagine! MacTavish takes his girl friend to the theatre every evening.

"Is that so? What show is she playing in?"

SURE!

"You know, my son has just joined the navy."

"Ah, then I suppose he has met my son. He's in the navy, too."

Chemical Control Of Quack Grass

The weed killer TCA (trichloroacetate) provides an excellent means of eradicating quack grass in and around fence lines, and it will be used to some extent in Alberta this year to control small patches of this weed in a variety of places. However, G. R. Sterling, supervisor of soil conservation and weed control, Alberta department of Agriculture, is doubtful of its value for large scale operations at the present time. At a price of 60¢ per pound, the cost to eradicate quack grass with TCA is around \$60 per acre. Quack grass can be controlled much more cheaply by cultural methods. The crops too will be better following cultural eradication of quack grass than when the chemical is used.

The main advantage of TCA is that it does not sterilize the soil for more than about 90 days. This is a comparatively short period as compared with the effects of sodium chlorate. Unlike sodium chlorate, TCA is not flammable, but since it will irritate the skin if it comes in direct contact, it must be used with a certain amount of caution.

1950 Pontiac Cars Boast New Features

OSHAWA—More than a score of appearance and mechanical changes, are incorporated in the new 1950 model Pontiac now on view in dealers' showrooms from coast to coast.

In presenting the new Pontiac, E. J. Umphrey, director of sales of General Motors Products of Canada, Ltd., said:

"We believe our 1950 Pontiac to be the best-looking, finest performing Pontiac ever produced. They embrace logical and well thought out advances. The new 1949 models brought Pontiac's popularity to a new peak. Now we have gone on from there."

Pontiac again offers Canadians the wide choice of 21 models, beginning in the lowest price range. Chieftain and Streamliner series, on 120-inch wheelbase, are continued with standard and deluxe styling, and with six or eight-cylinder engines. Cubic displacement of the eight-cylinder engine has been increased to produce 108 horsepower. The six-cylinder engine continues at 90 horsepower. Compression ratios for both engines are 6.5, allowing maximum performance with operational savings on non-premium gasoline.

Fleetleader Special and Fleetleader Deluxe, on 115-inch wheelbase offer calculated design touches from bumper to bumper, inside and out, which enrich and highlight Pontiac's traditionally rich appearance.

Pontiac's frontal design for 1950 reaches a new degree of massive integrity with main grille bars reaching out and around the fenders, carrying the approach pattern in profile view. Parking lamps are newly designed to carry out the horizontal emphasis. The grille itself is heavier and quartered by prominent support bars. The centre support bars the traditional Indian Head medallion.

Other exterior styling highlights include a new hood ornament and medallion, new rear deck lid handle and new rear deck name plate. Both fore and aft, the Pontiac Silver Streak, restyled to blend with the 1950 exterior treatment, again gives Pontiac the world's best motorcar identification.

BODY TYPES

The Chieftain series offers a sport coupe and four-door sedan, the latter with either deluxe or standard equipment, with the option of a six or eight cylinder engine in the deluxe.

Available in the Streamliner series are a two-door sedan coupe, and a four-door sedan coupe in a standard or deluxe, with again the option of six or eight-cylinder engines in the deluxe.

The Fleetleader Series offer (Special or Deluxe) sport coupe, two-door sedan coupe, two-door sedan, four-door sedan, four-door sedan coupe and business coupe (special only) with the six-cylinder engine.

The famed GM Hydra-Matic Drive is again available as an option at extra cost on certain Pontiac models.

INTERIOR STYLING

The ultimate in good taste fea-

tures the interior styling of the 1950 Pontiac. Two complementary shades of grey are used as a basic color theme. Dark grey finish on the upper half of the instrument panel combines with a light grey on the lower half, except in the case of the Fleetleader Special which is solid dark grey. Interior upholstery trim varies with series and is designed to blend harmoniously with Pontiac's basic interior color theme.

Pontiac's instrument panel, praised by design experts for its functional elegance, remains essentially unchanged. New simulated carpet rubber floor mats are used in the 1950 Pontiac rear compartments. Closely resembling pile carpet, the new material is long wearing and easy to clean. On the Chieftain and Streamliner, there is a new horn button with distinctive coin-like design, and detail highlights add sparkle to the front compartment.

MECHANICAL HIGHLIGHTS

The Pontiac eight cylinder engine has been stepped up in power by increasing the diameter of its cylinders but remains the same dependable Pontiac power plant, road tested by millions of owners and capable of delivering its best performance on standard grade gasoline. To match the increased power of the eight, the crankshaft rear bearing has been enlarged and a positive rear bearing oil seal added. To provide additional cooling capacity, the outside walls of the cylinder water jacket have been moved out at sides and ends. Where Synchro-Mesh rather than Hydra-Matic transmission has been ordered, clutch with increased diameter is provided to assure smooth positive engagement.

Other Pontiac Mechanical innovations for 1950 include:

A new and larger radiator core for the six cylinder engine; rubber rear spring bushings to eliminate road shock and power transmission noises and which eliminate lubrication need at this point. Body rigidity and passenger safety is improved by changing the

roof rail from channel to box-type construction. Door locks on the 1950 models now are freeze proof and coil spring holders eliminate foot rattle in the trunk. In the Chieftain and Streamliner, steering wheels have been lowered to improve visibility for persons of less than average height.

Duke Sues To Evict Prince From Palace

PARIS. — A magnificent Renaissance palace on the Grand Canal in Venice, a part of the estate of the Singer family of sewing machine manufacturers, is the subject of a legal battle in the Paris courts.

Duke Elie Decazes, grand nephew of the late Winaretta Singer, who married Prince Edmond de Polignac, was suing to evict Prince Pierre de Monaco from the marble, tapestried Venetian palace but the Monacan prince refuses to go because the housing shortage leaves him no other domicile.

The will of Princess Polignac, who died in England in 1943 at the age of 82, provided that Prince Pierre could occupy the palace for five years. Pierre asserts that the war prevented him from moving in until 1947 so he is entitled to the premises until 1952.

Decazes says the five-year tenancy started in 1943 and that the prince should have moved out in 1948.

Winaretta was the daughter of Isaac Merritt Singer, who founded the sewing machine company.

Rape Artist Escapes Lash

Appeal of Raymond Nolles, 29, Edmonton salesman, against conviction and a three-year penitentiary sentence for attempted rape was dismissed by the appellate division of supreme court.

The sentence was mitigated, however, by eliminating 10 lashes ordered by trial Judge Mr. Justice S. J. Shepherd in supreme criminal court last Nov. 1.

Club Les Hironnelles Shower Party

MORINVILLE—On Friday evening, January 20th, Les Hironnelles Club were hostesses to about 120 ladies in honor of Miss Eloise Malsonneuve, their vice-president, who was married January 24th to Mr. Melvin Berle of Volmer.

After several tables of cards, bingo and couple games were played, a musical program was well rendered with Miss Georgette Teller as M.C. Mrs. Bill Kraus, Mrs. Laura Gibeault, Miss Stella Meunier, Rita Bunkentou, Galette Letourneau sang songs accompanied by Mrs. L. Reopel. Miss Alice Schaffers played violin accompanied by Irene Bunkentou. The program concluded with a goodwill address on behalf of the club read by Mrs. Georgette Teller in English and Miss Olive Meunier in French.

Lunch was served, after which the bride-to-be was showered with a large assortment of beautiful and useful gifts along with a special presentation of a silver cream and sugar service from the club.

WHY A HEALTH WEEK?

In the last 25 years, Canadian death rates have fallen in a remarkable way. Discoveries in the field of scientific medicine have had a profound effect on our civilization, and naturally have resulted in higher standards of health.

Some diseases which were known as scourges—no more than 25 years ago—are now either completely under control or partially checked. For instance, cases and death rates in Canada for tuberculosis, typhoid fever, scarlet fever, diphtheria and whooping cough have fallen spectacularly in that period of time. Infant and maternal deaths are on the downgrade, and smallpox has just about disappeared. A spectacular instance of change for the better is seen in diphtheria statistics. 9,093 cases and 1,280 deaths in Canada in 1924 against 898 cases and 85 deaths in 1948.

Despite all this, however, there is still much room for improvement in the nation's health picture. Many problems continue to baffle medical science, public health workers and the general public alike. For instance, the attack on cancer and arthritis has only begun; the venereal disease problem is still a significant one; more attention needs to be paid to the health of industrial workers by both management and the workers themselves.

There is still much need for research and education in the field of nutrition. Poliomyelitis is another problem which must be solved, while even the common cold still has humanity baffled.

Medical science and health workers generally still have much to do, and that is why such events as National Health Week, sponsored annually by the Health League of Canada, are necessary. Health Week helps make Canadians aware of the facts—helps give them a clear view of the nation's current health picture—and points out what they can do to help improve that picture. Canada's sixth annual National Health Week is scheduled for January 29th to February 4th.

39 Fined For Cars On Street

A total of 39 Edmonton motorists were fined \$3.00 and costs respectively when they pleaded guilty in police court last week to a charge of parking their automobile on city streets over night. They were charged with "storing" their vehicles on the street.

Formal Opening of Seed Cleaning Mill

MORINVILLE—The formal opening of the Morinville Seed Cleaning Mill took place at 2 p.m. on February 1st.

"Good Deed Club" Speaker

ST. ALBERT—Isabel Perrenut spoke from the "Good Deed Club" last Saturday over CICA. She will receive a wrist watch for her good work at their recent fire.

Summer Eggs Are The Pay-Off Kind!

YES SIR! It's with those early hatched pullets that come into production from July to early November that you cash in on the high prices when fresh quality eggs are scarce. Let the marginal poultryman sell off their flocks at the first sign of low prices now but YOU plan to be in at the pay-off when the shortage develops next summer. In order to have pullets laying in June you have to have January and December hatched pullets. Fortunately enough we have several thousand of 6 to 10 weeks' old pullets for immediate delivery. Get yours now and avoid disappointment.

Write for our catalogue and \$3.00 coupon.

New Machinery Purchased by Sturgeon M.D.

EDMONTON.—At the January 19 meeting councillors of the Municipal District of Sturgeon a by-law for purchase of new machinery was passed as follows:

BY-LAW 426

Under authority of the Municipal Districts Act, Chap. 161, Sec. 219, the council of the Municipal District of Sturgeon No. 90 enacts as follows: A by-law to purchase from Watrous Ltd., of Edmonton, Alta., one (1) 278 W.H. Wing, cat. No. 28290 for snow plow for the sum of \$975 and one (1) power hydraulic control system for 278 plow for cat. No. 28300 for the sum of \$631, the total price being \$1,606, for Edmonton. Delivery as soon as possible.

Carried by the unanimous vote of the council this 19th day of Jan. 1950.

Present were Reeve T. W. Rowswell; Councillors Joe McLean, Clive Potter, Henry Stack and Steve Radomski. After acceptance of the reading of the minutes and financial statement the reeve submitted the inspector's report for 1949 and was read by the councillors, and it was then moved by Councillor McLean that the inspector's report be taken to the ratemakers' meeting and read before the hour of 3 o'clock on Saturday, Feb. 18, Carried.

SUPPLEMENTARY ALLOCATIONS FOR 1950: It was moved by Councillor Potter that advances be approved to all councillors and general a/c of \$2,000 each until the estimates are brought down for 1950. Carried.

Mr. Haddow representing Watrous Ltd. interviewed the council relative to snow plow which has been on order for the past three years, stating that it would be necessary to re-order this snowplow wing and that delivery could be expected some time in February.

ASSESSMENTS: Moved by Councillor Potter that the 1949 assessment be adopted for 1950.

CORRESPONDENCE: M. D. Blackie No. 30—L.T.D.18 wide gauge Cat for sale. Ordered filed away—no interest.

EDMONTON UNION OF M.D.'s Quarterly meeting Monday Jan. 30, 1950, at Canora hotel.

Union Tractor—notice of grade belts on hand for 42" and 48" elevating grader—Ordered filed away.

ALBERTA MOTOR ASSN.: Asking co-operation of M.D. to erect signs to be supplied by Motor Assn. and giving number required together with locations. Moved by Councillor Joe McLean that this council be prepared to co-operate with the Alberta Motor Assn. in erecting signs on the following roads:

On 137 avenue at 50 street—To Hon Accord—north 16 miles. Corner NE 33-55-24-4 to Mor. inville—west 6 miles.

Corner NE 19-57-23-4 to Le. gal—west 8 miles.

Corner NE 19-58-23-4 to E. remont—east 11 miles.

Corner NE 21-59-23-4 to Thor. hild—east 10 miles, north 2 1/2 miles.

Corner NE 24-57-23-4 to Red. water—east 6 1/2 miles.

Junction Fort Trail and Gibbons Road (NW of NE 12-56-22-4) to Gibbons—west 8 miles.

Sim—to Redwater—northeast 8 miles. Carried.

Patroling, Duncan McClary etc.—Auditors report—Ordered filed.

Westco Products Ltd.—Notice of 12 bridge signs—filed away.

Alta. Assn. of M.D.'s—Copy of Dr. Cusna's address re proposed plan of hospitalization and copy of formula for distribution of p-property of road grants.

DIRECTOR OF TOWN PLANNING: Circular outlining proposal for the establishment of a district planning commission for the Edmonton area. Moved by Councillor J. McLean that Reeve Rowswell represent the municipality at any future meetings. Carried.

Workers' Compensation Board—copy of 1949 audit—filed.

Chief Bridge Engineer—re east west road allowance east of bridge N 36-54-25-4—suggest contact water resources and irrigation department regarding diverting the river to prevent future erosion to allow the straightening the road directly on road allowance. Information noted by Councillor Potter.

RESIGNATIONS: Councillor Radomski presented to the council his written resignation as councillor for Div. 5 to take effect March 31, 1950, due to the fact that he will be moving from the district in March. It was moved by Councillor Stack that we accept Mr. Radomski's resignation with deep regret.

NOMINATION MEETING: It was moved by Councillor Radomski that nomination meeting be held for his unexpired term of office—2 years—at the same time as the ratemakers and nomination meeting to be held at Gibbons on Saturday, Feb. 18, 1950 and that the following be appointed deputy returning officers and enumerators together with the listed polling places: 1. Fred Chahna, East-side School; 2. Pete Wacowich, Moose Hill School; 3. Bill Kosciennik, Carr. Carried.

ASSESSOR: Mr. Sid Gee reported on his visit to Calgary relative to a statement of the different oil and drilling firms called upon. Ordered filed.

ASSESSMENTS: The assessment commission with their decisions respecting appeals from the decision of the court of revision of the Municipal District of Sturgeon, heard by the commission on Nov. 22, 1949:

Improvements—assessment confirmed. Nick Caryk, West Edmonton; M. Geisler, North Edmonton; Mike Pleusk, Beverly.

Buildings would be farm buildings—assessment confirmed. Mel. Ash; Anna Exodals; Fred Sierson; W. W. Harrison; H. Bruggenotte. Ordered filed away.

BRIDGE ENGINEER: Bridge 15-16-58-22-4. Notice bridge was inspected July 6, 1949 and sub-district in bad condition. Councillor Radomski states hole in bridge was fixed after inspection.

STURGEON S.D.: Request from divisional board for an advance on school requisition due March 15 of \$10,000. Secretary instructed to give advance requested.

COMMUNITY PUBLICATIONS: Request for a flash photo of council in session. Granted.

SEED GRAIN: Moved by Councillor Radomski that the municipality will not handle any seed grain under the Seed Grain Line Act for the year 1950. Carried.

BURIED WIRE: Complaint from Peter Skaken that road gang when grading alongside his land buried some of the wire from his fence under the road. Inspection of the road in question of Dec. 8, 1949, shows that his fence both on the south and east roads had been covered with drifted soil over a period of years and when the grading was done the grader did not go beyond the Calgary Power Line poles, so unless his fence wire was buried under the drifted soil on the roadside of Power Lines, the road gangs could not have plowed any wire under the grade. It is possible the wire is

still buried under the drifted soil where his line fence is supposed to be. The secretary was instructed to notify Mr. Peter Skaken to that effect.

SALE OF LAND: Application of Mrs. Grierson (Allie) of 6124 111 avenue, Edmonton, to purchase lots 3 and 5, block 4, North Redevelere, Plan 7640 A.J. for the sum of \$80 cash.

BY-LAW No. 427: A by-law concerning the sale of lots 3 and 5, block 4, North Redevelere, Plan 7640 A.J. pursuant to the provisions of the Tax Recovery Act, Chap. 161, R.S.A. 1942, that the application of Mrs. Allie Grierson of 6124 111 avenue, Edmonton, housewife, to purchase the same for the sum of \$80 cash be accepted subject to the approval of the minister of municipal affairs.

Carried by the unanimous consent of the council this 19th day of Jan. 1950.

LEASES: Application of Stanley Zilinski of Anton Lake for renewal of lease for another year of the SW 32-59-23-4 to Stanley Zilinski for the year 1950 on the same conditions as called for in 1949. Carried.

Moved by Councillor Stack that we lease to Mr. A. J. Middleton of Halfway Lake the E 1/2 36-24-4 and N 1/2 31-59-23-4 on the same conditions as in 1949. Carried.

OLD AGE PENSIONS: Notice that Peter Forest of St. Albert has been granted a pension commencing Jan. 1, 1950.

RELIEF: Application of Kenneth Dool at present living in Edmonton for emergency relief due to the fact out of work and was not eligible for unemployment insurance. Temporary relief was given by the reeve and secretary to cover milk for his four children and some groceries for 10 days. Secretary was instructed to use his own judgment should this man require any further temporary relief. Am now informed this man is now working and will pay back the temporary relief granted.

Application of Frederick J. Whitley who has sold his farm and claims he cannot do any hard work. Whilst he has some money in the bank wishes to be assured that he will get some relief before his money is all gone. Moved by Councillor McLean that no relief be granted at present, but light work will be provided on the roads in the spring and summer. Carried.

Application Morley Favell, Thorhild P.O. This man some years ago had both legs removed below the knees and has been living from the proceeds of the sale of his land, and now his money has gone. He has some few years to go before he will be eligible for a pension. He has three horses, a sleigh and a buggy. He lives on SW 16-59-22-4 rent free. It was moved by Councillor Radomski that relief be granted, \$15 for groceries and \$10 for clothing for January and thereafter \$15 per month. Carried.

Peter Szycal. This man was found very ill in North Edmonton and moved to Royal Alex hospital. Has now been moved to St. Joseph's for the aged an infirm. The doctor and the Royal Alex obtained very little information from Mr. Szycal, claiming he had no money and was destitute. Apparently he has no home and will have to have insulin, being a diabetic. The secretary reports that after considerable investigation, has now established the fact that this man has money in two banks in the city, sufficient to pay for his hospital care for some time. Secretary instructed to take all steps necessary to see that this man pays for his maintenance from his own funds.

BRIDGE SEE 28-50-24-4. This bridge in poor shape. Councillor Stack to take necessary steps to have bridge repaired, if possible.

SAVE THE SOIL CAMPAIGN: Notice that Mr. L. M. Fraser is winner of the top award by the Chamber of Commerce. It is doubtful if the municipal award should be made this year as there is only one entrant. Secretary instructed to notify district agriculturalists to use their own judgment.

Moved by Councillor Radomski that accounts and pay sheets be passed and ordered paid. Carried.

Moved by Councillor McLean that meeting adjourn to meet again Thursday, Feb. 9, 1950. Carried.

REDWATER NEWS

REDWATER. — On Tuesday, Jan. 16, businessmen of Redwater received an invitation from Mr. Lee Lung Sing and celebrated the opening of the new Redwater Cafe. A delicious Chinese supper was served which was all made up of very attractive Chinese dishes which were very much enjoyed by all.

Honored guests present were: Mr. Constable, Mr. Gibson, Mr. Nowers Impitt, Mr. and Mrs. Fred Carstenson, Mr. and Mrs. Paul Proskerniak, Mr. and Mrs. Charlie Barnes, Mr. and Mrs. James Ewald, Mr. and Mrs. Belaney, Mr. Harry Zalmer, Mr. and Mrs. Emile Royer, Mr. and Mrs. Jack Melner, Mr. and Mrs. Walter Lowmarty, Mr. and Mrs. Jim Lukes, Mr. and Mrs. R. Swain, Mrs. H. D. Smith, Stan Hughes, Mr. Doug Archer.

All were extremely delighted at the beautiful interior construction of the building which is one of the best eating places of Redwater of which the town is very proud. All expressed sincere thanks and best of luck to Mr. Lee Yung Sing.

Teachers Meet

SMOKY LAKE. — A good attendance was present at the recent sub-school meeting, Mrs. M. Clarke of Waspette gave a report to the teachers present on "Reading." Methods of teaching reading have changed from the Phonic method to the phrase and sentence method.

A committee consisting of S. Klen, Z. Rosanachuk and S. Olymk was elected to plan a festival for our sub-school for the coming year. The date was left up to the committee but it is believed it will be some time during the latter part of May.

The date for the next meeting was set for Thursday, Feb. 23 at Waspette.

Drillers Move

ELECTION NOTICE

Nominations for Elections Municipal District of Morinville No. 91

Municipal Elections, 1950

Public notice is hereby given that a meeting of the electors of the Municipal District of Morinville No. 91, will be held at the PARISH HALL in MORINVILLE, ALBERTA, at one o'clock p.m. on Saturday, the 18th day of February, 1950, for the discussion of the affairs of the district; and that from three o'clock p.m. to four o'clock p.m. on the same day and at the same place nominations for the office of Councillor will be received. One Councillor is to be elected.

Councillor to be elected for the following electoral division: Electoral Division No. 4.

Given under my hand at Morinville, Alberta, this 2nd day of February, 1950.

WALTER ELLETT, Returning Officer.

● The new Goodyear DeLux gives more mileage... 34% more mileage than the big-mileage Goodyear it replaces. Gives added protection from blow-outs... PLUS supertraction... it's Canada's most popular tire... the overwhelming choice of thrifty motorists.

that the vault protection has been available.

CHILD WELFARE BRANCH

Moved by Councillor Schafers that we advise the Bureau of Public Welfare that the officers as approved and appointed for child welfare work as as follows: Walter Ellett, R.R.2, Morinville; J. O. Patry, Morinville.

That they be advised that Mr. N. C. Perrott's home would be available where children could be placed temporarily. Carried.

PICKARDVILLE DELEGATION

A delegation from the Pickardville Board of Trade interviewed council. George Lawley acted as spokesman and the delegation was composed of Messrs. Provost, Smith, Schiller, Boucher and Brownlee. The spokesman advised council that they were requesting two blocks of cement sidewalks in the hamlet of Pickardville on the main street due to the condition of the present board walk which is dangerous to the public.

They were advised by council that their request was very much in order as the sidewalks were in poor shape. They were also advised that the matter would be given their attention at the time of the drafting of the budget and there was no doubt their council would make the necessary provisions for the work as requested.

ALBERTA LIBRARY BOARD

Letter from the above as well as a letter from Mrs. D. McMillan regarding the same was read to council.

The matter was ordered tabled by council for further study and information.

ADVERTISING SIGNS

Complaints re signs in the ditch on the road right-of-way was taken up by council. Mr. T. Logan, who called on council, advised that no signs were at the location in question which was complained against. He was advised by council that the erection of these signs was contrary to the Public Works Act.

Moved by Councillor Meunier that the matter be tabled for the time being. Carried.

ROADWAY NORTH OF THE N¹/₂ 36-56-26-W4

Question of liability regarding this roadway was brought to the attention of council by Thomas Logan. He was advised by council that this was agreed to by themselves and was their own request, that council had granted them this privilege and they had agreed to accept all the responsibility.

M. WILLS—W¹/₂ 16-56-26-W4H

The above called on council in regard to his note in the sum of \$182.82 which became due Jan. 2, 1950. He advised council that this would be settled within three weeks at which time he will be selling his hogs. This was agreed to by council.

REMINGTON RAND

Wm. Ball, representative from the above, called on council re electric calculator priced at \$625 and electric adder at \$385.

Moved by Councillor Walker we order the electric adder on a 30-day trial and if satisfactory that

we agree to purchase same providing the Burrough adding machine we have is all properly repaired by themselves at no cost to the municipality. Carried.

GERARD RIPOEL

N.E. 9-58-27-W4

Letter dated Jan. 9, 1950 requesting 100 bushels of seed oats was read to council.

Moved by Councillor Perrott he be advised that the Morinville Municipal Seed Cleaning Co-op Limited can supply him with the oats required and that he could have the same financed through his bank, as he could furnish security for such a loan. Carried.

CORRESPONDENCE

The following letters were read to council: Fairview Chemical Co. Ltd., dated Jan. 5, 1950; Alberta Association of Municipal Districts dated December 9, 1949; Edmonton Tire Company dated Jan. 6, 1950. Ordered filed.

MRS. ELIZABETH HIDDISCOMBE

Letter dated Dec. 28, 1949 advising that Mother's Allowance in the sum of \$35.00 per month had been granted to the above mentioned, was read to council. Ordered filed.

VERA COURTEPATTE

The above in accordance with a letter from the Bureau of Public Welfare is a charge of the M.D. of Stony Plain for Material Aid purposes. The Municipal Inspector has issued an emergency order in this case in the sum of \$20.00 and has recommended a Mother's Allowance in the sum of \$35.00 per month. This person is illiterate.

Moved by Councillor Perrott that we recommend to the Superintendent of Mother's Allowance that her allowance cheques be mailed in care of John Krupa at Calahou, Alta. Carried.

JAGAT SINGH Calahou, Alta.

The Relief Inspector has issued an emergency order in this case in the sum of \$25.00. This man has suffered a stroke and is also in need of medicine prescribed.

Moved by Councillor Meunier that we allow this case \$40.00 per month as from Jan. 1, 1950, the said sum to include any medicine required. Carried.

ARTHUR G. D. NORTH Calahou, Alta.

Application for an increase in Material Aid for the above was read to council as received by Councillor Walker.

Moved by Councillor Schafers that we allow an increase of \$5.00 per month in this case as from Jan. 1, 1950. Carried.

MRS. ELIZABETH F. ANHORN Westlock, Alta.

The Town of Westlock has issued an emergency order in this case in the sum of \$20.00 for food under instructions of Police Magistrate M. McKeen. The case was investigated by relief officers and Reeve Duseault. As no information on court cases in this regard has been received, the matter was ordered tabled till next meeting.

JOHN LAGEZA

Moved by Councillor Walker that we advise the Old Age Pension Branch that we recommend the Youville Home be made trustee for this person. That in the future his cheques be mailed di-

rectly to the Home, instead of to our secretary-treasurer who was the previous trustee as recommended by council. Carried.

ALLISON GREEN

St. Albert, Alta.

Letter from the Youville Home was read to council regarding the above mentioned, who is now back in the said home. Council was advised that the party who was to call for him from the U.S. had died suddenly. Further correspondence in this regard is being carried on with this man's family. Ordered tabled.

PERSONAL PROPERTY TAX

Council was advised that there were three cases of the above taxes uncollected as at Dec. 31, 1949.

Moved by Councillor Schafers that we have our appointed collector call on these cases for the purpose of collecting same. Carried.

FINANCIAL STATEMENT

The financial statement for the year 1949 was given to council as prepared by the secretary. He advised council that the tax arrears had increased by \$15,906.69 over the previous year. That although collections were 96.6% of the levy, taking into consideration the increase in arrears as stated, that on the year's operation the surplus would be \$10,106.54. Council advised that the auditors would be auditing the records beginning Jan. 16, 1950.

NEXT MEETING

Moved by Councillor Perrott we hold our next meeting on Thursday, Feb. 9, 1950. Carried.

ADJOURNMENT

Moved by Councillor Schafers we adjourn the meeting at 6:00 o'clock p.m. Carried.

New Electric Sales And Repair Business Opened

ONOWAY — Edward Dixon has opened a radio, electric sales and repair business. He will sell several well-known makes of radios, as well as home appliances, such as toasters, irons, washers, and vacuum cleaners, and in addition repair all types of appliances.

This business will also handle sales and service on lighting plants and farm water systems, and will be in a position to do house wiring in the near future.

Mr. Dixon has had plenty of experience in these lines, having started in radio service in 1939. During the war he worked with the United States Army Signals. Later he held the position of service manager in a large firm of home furnishings and he also worked in the appliance repair in Eaton's. He has operated his own business in Edmonton. Ted, as he is known in the district in which his family have lived for over 12 years, took his high school in Onoway, and is well-known to his many friends here.

Re-organization of Junior Club

ONOWAY — There will be a meeting in Onoway on Saturday, January 28th, at 2 p.m., for the purpose of re-organizing the Junior Club.

Young farmers between the ages of 12 and 22 and their parents are invited to attend this meeting.

An organization of this type can be of great benefit to young people of any community and thus be an asset to the community at large.

This will be an organization in your community and can be a success only if people support it.

The oil fields of southwestern Ontario, among the continent's oldest, were first developed during the 1850's.

Agricultural Board's Annual Report

By J. A. PATRY, Secretary

MORINVILLE. — Members of the Service Board for the year 1949: John Schafers, Morinville, chairman; councilors: Nick C. Perrott, R.R.1, Morinville, councillor; Jack Dhoeet, Calahou, farmer; Albert St. Arnaud, Vimy, farmer; J. M. Fontaine, Edmonton, district agriculturist; Walter Ellett, R.R.2, Morinville, field supervisor; J. O. Patry, Morinville, secretary.

The Morinville Agricultural Service Board held three regular meetings during the year 1949 and also took part in the operation Field Day sponsored by the Agricultural Section of the Edmonton Chamber of Commerce on Aug. 3, 1949. This is the fifth year of operation for the Service Board and satisfactory progress has been made by the board on all farms under supervision as well as the farms which are under its control.

There are at present 25 quarters under supervision and five under control of the Service Board. Several are now in a sufficiently improved condition to navigate with very little help. Weed Control and Soil Conservation are the main objectives of the Service Board and a farm is only placed under supervision when action under the Noxious Weed Act fails to bring about the desired results.

A seed drill survey was again conducted by the Service Board in 1949 whereby 103 samples of seed being used which were taken from drills and tillers throughout the municipality. 30% of these samples graded as rejected, 19% graded as No. 3 seed, 24% graded No. 2 seed and 27% as No. 1 seed.

While this is an improvement over the survey as made in 1948 it is yet far from satisfactory. Of all the samples taken, only nine were free of weed seeds of other grain. One sample had 12 tartsy buckwheat and 12 wild oats per pound of barley, which would mean 1,728 weed seeds per acre were sown on this farm.

Another sample had 820 weed seeds per pound in oats which would mean that 69,700 weed seeds per acre were being seeded in this farmer. When such practices are permitted our weed problem, no doubt, will increase.

The Service Board recommended the erection of a seed cleaning plant and the council approved of the same as well as the provincial government and this plant is now about ready to begin operation. The Morinville Municipal Seed Cleaning Co-op Limited was formed.

Already two carloads of seed oats have been distributed and several more have been ordered and will be distributed as soon as the plant is in operation which should be by the end of January, 1950.

As most of the ratepayers will have to buy seed this year, the plant will be able to provide seed of the best quality and a great deal of effort in eradicating weeds will have become a reality. The plant is also at your disposal for the cleaning of your seed as required.

The municipal sprayer and mower purchased during the year proved a good investment as approximately 2,000 acres were sprayed for farmers in the district as well as 30 miles of roadways. The mower was used on roadway work to cut 160 miles c both sides; this will prevent snow from drifting so badly on the said roads; the trim appearance of these roads is well worth the cost of the work. Some 35 miles of new grades and roadways were seeded to a mixture of legumes and grasses in order to combat the growth of the weeds.

The Service Board held 12 meetings throughout the district during 1949. Pictures were shown on soil conservation and talks were given on the various farm problems. Five weed inspectors were employed during the summer months and with the help of the field supervisor, the weed situation was kept under control.

There were 576 cans of gopher poison distributed throughout the district during 1949. These are distributed free of charge to the ratepayer and one only has to travel through the district to notice the control that is being maintained on the gophers. It would be well to urge the farmers to attend to the gopher menace early in the spring as at this time the spreading of the gophers would be greatly reduced.

COST OF OPERATION AGRICULTURAL SERVICE BOARD

Jan. 1, 1949 to Dec. 31, 1949

EXPENDITURES:
Field Supervisor's Salary \$2,060.00
Field Supervisor's Mileage 1,117.20
Service Board Meetings 164.80
Stationery, stamps, printing, meetings, etc. 146.88

Total Expenditures \$3,428.88
Less grant received in 1949 \$1,237.95

Total Cost to Municipal District \$2,190.93
Cost of operation, protection to person and property, supervised farms and farms under control under the direction of the Agricultural Service Board.

EXPENDITURES:
Weed Inspectors (5) \$2,314.75
Gopher poison distributed (free to ratepayers) 216.00
2-4-D purchased 1,450.08
Sodium-chlorate 357.00
Expenditures under the Noxious Weed Act 306.70
Operating of Sprayer and Mower 344.94
Advances to supervised and controlled farms 953.02
Pound fees 114.00
Surplus payment to owners of farms under control 292.20

TOTAL \$6,348.69

RECEIPTS:
Chemical sales \$1,768.81
Noxious Weed Act 232.22
Controlled farms 1,173.64
Supervised farms 533.87
Spraying and mowing 259.87
Pound Surplus 104.00

Total \$4,063.41

NET DEFICIT \$2,285.28

ASSETS:
Noxious Weed Act (Uncollected) \$ 274.67
Unpaid spraying accounts (For sprayer) 24.57
Unpaid spraying accounts (Chemical) 100.16
Unpaid advances on supervised farms 310.37
Unpaid advances on controlled farms 274.85

TOTAL ASSETS \$ 984.62

LIABILITIES:
Surplus on controlled farms as of Dec. 31, 1949 \$ 243.67

The Service Board used 672 pounds of sodium-chlorate in demonstration in the control of leafy spurge and toad flax and also furnished half of the sodium-chlorate required to treat leafy spurge to the farmers who had the said weed. Five gallons of 2-4-D were also used by the Service Board in the spraying of roadways in the district.

Respectfully submitted,

Agricultural Service Board,
M.D. of Morinville No. 91.

J. O. PATRY, Secretary.

SPEED, ATTENTION, EFFICIENCY!

S-A-E means something to every motorist. It has a special meaning to our customers . . . the Speed, Attention and Efficiency that they get when they drive in here for car service.

Hon. David Ure Opens New Seed Cleaning Plant, Feb. 1

MORINVILLE. — On Wednesday of this week, Hon. David Ure, Minister of Agriculture in the Alberta government, officially opened the new Seed Cleaning Plant here. Ceremonies commenced at 1:30 p.m. and farmers and shareholders, as well as townsfolk and others attended. John Schaffers, President of the Board of Directors and Walter Ellett, Secretary-Treasurer, welcomed the visitors on behalf of the organization.

Officials of the Department of Agriculture were introduced and each gave a short talk, after which Mr. Ure officially declared the plant open and threw in the main switch which provided power for all the numerous electrical equipment.

After these ceremonies Plant Manager Nap Douzeich, with Walter Ellett and J. M. Fontaine conducted a tour of the plant in operation.

Later, at the Morinville Community Hall, the Board of Trade played hosts to distinguished guests and visitors alike at mid-afternoon luncheon. Art Soetart, President of the Board of Trade, welcomed those who assembled and acted as host along with Maurice Tellier in charge of entertainment.

Speakers heard from John Schaffers, Walter Ellett, J. M. Fontaine and Nap Douzeich. Lunch was served by Mrs. Laura Tellier, with assistance of the ladies' branch of the Morinville Sports Association.

Banquet in Honor Of Dusseault Family, Vimy Master Farmers

MORINVILLE. — Wednesday, Feb. 1, 1950, was a gala day, long to be remembered by residents of the Morinville Municipal District.

In addition to the opening of the seed cleaning plant in the afternoon, and the reception in the Community hall by the Board of Trade, a banquet in honor of Reeve J. G. Dusseault of the municipal district was held in the Parish hall.

Mr. Dusseault was given the honor, with his family, of appointment as one of Alberta's Master Farm Families in 1949. Full details of his appointment were given in a previous issue of this paper. We hope to carry news and pictures taken on Wednesday in next week's issue of this paper.

New Seed Cleaning Plant

This is the new Morinville Seed Cleaning Plant, which was officially opened by Hon. David Ure, Minister of Agriculture, at ceremonies on Wednesday, February 1st, 1950.

OFFICIAL LIST OF GUESTS

MORINVILLE. — Following is a list of the guests invited to attend the opening of the Morinville Seed Cleaning Plant:

Hon. David Ure, Minister of Agriculture.

O. S. Longman, Deputy Minister of Agriculture.

A. M. Wilson, Field Crop Commissioner.

G. R. Sterling, Supervisor of Soil Conservation and Weed Control.

J. Smail, Senior Electrical Inspector, Provincial Government.

All Ratepayers Get This Supplement

MORINVILLE. — Due to the policy of the Municipal District of Morinville in supplying each ratepayer with a copy of the paper, all farmers within the municipal district who are ratepayers receive a copy of this special edition covering the opening of the seed cleaning plant. The St. Albert Gazette, Morinville Journal and Legal Record serve the municipal district in this way. There is no individual charge to subscribers who are ratepayers as the costs are paid out of the general fund.

Search For Oil Goes On

MORINVILLE. — Another new wildcat is being started by Imperial Oil Co. Ltd., 50 miles northwest of here, near Jarvie.

The new test is Imperial-Jarvie No. 1 and will be about 38 miles northeast of the O'Meara-Barrhead No. 1 indicated Madison limestone success.

Imperial now has seven drilling rigs operating at wildcat tests and probably will use the rig from the Grosmont abandonment for the new Jarvie venture. Drilling is to begin within the next 10 days.

Central Leduc Oils Ltd., Del Rio Oil Producers Ltd. and Midland Petroleum Ltd. ran a drillstem test at their Excelsior venture and received a small gas blow plus recovery of salt water when the pipe was pulled.

Crew is drilling ahead at 3,700 feet, in search of the D2 objective which at Imperial's Excelsior driller proved productive.

Central-Del Rio No. 2, about two and a half miles southwest of the discovery and two and a quarter miles west and half a mile south of Rio Bravo's first oilwell at Excelsior, is a three-way venture between Central, Del Rio and Midland.

There are three other tests under way at present in the Excelsior area. Leduc Calmar Oils Ltd.'s Excelsior No. 1, a mile and a half north of the Imperial discovery; Rio Bravo-Carruthers No. 6-3, a quarter mile east of Rio Bravo; No. 1 and Pacific-Excelsior No. 1, a mile east of Imperial's D2 discovery well.

Seed Plant Is Well Located

MORINVILLE. — Patrons of the new seed cleaning plant at Morinville will find it very convenient to make deliveries and pick up seed purchases.

It is situated between the high-

way and the N.A.R. station, right on the railway line. It is convenient for shipments via truck or rail, and not too far removed from the centre of town.

The province of Quebec accounts for approximately 33 per cent of Canada's production of chemicals and allied products.

HISTORY OF THE NEW SEED CLEANING PLANT

MORINVILLE. — No project, such as the building of the Morinville seed cleaning plant is possible without hard work, initiative and co-operation on the part of all concerned. But the initial credit for this new plant goes to the Agricultural Service Board of the

Municipal District of Morinville, which, through its able officers, was largely responsible for the formation of the "Morinville Municipal Seed Cleaning Co-operative Limited." This is the name of the co-operative operating the plant.

For many years the need of a seed cleaning plant in the municipal district has been felt by ratepayers, officials and the agricultural department at Ottawa. It was realized that only by a co-operative effort could the plant be built and operated, and when the organization was formed the provincial government volunteered to give a grant of \$10,000 for the project.

This money had to be used in construction and equipment of a modern seed cleaning plant, approved by the department of agriculture, however, only when the municipal district also granted \$10,000, and the balance required raised by private sales of shares in the Co-operative.

Directors of the Co-operative elected by ballot at the first meeting of shareholders, were John Stevens, Maurice Teller, Nap Douzich and Angus McGillis. The department of agriculture appointed J. M. Fontaine as their representative on the board and the service board selected John Schafers and Walter Ellett also to serve as directors.

At the first meeting of the board of directors John Schafers was elected chairman and John Stevens vice-chairman. Walter Ellett was appointed secretary-treasurer and Nap Douzich, manager of the plant.

To get a thorough knowledge of other seed cleaning plants the directors visited Westlock, Camrose and Wetaaskwin. Then the program of building the new plant was proceeded with and Contractor Ed Anderson was made construction supervisor. The result, in the completion of the fine new plant, speaks well of Mr. Anderson's ability and the wisdom of the directors in choosing him to undertake the construction work.

A well-known Morinville businessman, A. R. Martel of Martel Electric was given full charge of electric wiring, installation, and Mr. Martel also supplied and installed the heating system. The plant building, which includes material an labor cost in excess of \$20,000, while machinery and equipment costs will exceed \$16,000.

The charges for cleaning grain is five cents per bushel for commercial seed, 10 cents for registered and certified, two cents for sacking, four cents for treating with Cersan by the Slurry method which eliminates dust, and 10 cents per cwt. for hammermill operation.

Capacity of plant in full operation cleans from 100 to 300 bushels per hour.

Storage capacity is 16,000 bushels.

Dinner Party Honors Baby Son
